

In the name of God, Most Gracious, Most Merciful

**MOON SPLIT HAPPENED IN
OUR RECENT GENERATION!?**

Motivation

- The following slides are here to present the reasoning behind the idea that why the Split Of the Moon mentioned in chapter 54:1 occurred when the American Apollo 11 Moon mission in 1969 brought some Moon soil (21.55 Kilograms, 47.51 Pounds) to earth to be studied.
- There would be a collection of all the evidences and related information to this event and most likely more bullet point events will be added as we collect and or discover pertinent information to this phenomenon.

Motivation

- As you can see later, the prophecy (as a sign of approaching the end of time) is not landing on the Moon by itself, while the moment that the Apollo 11 Moon Lander detached from the surface of the Moon with the collected soil in its cargo bay is the precise moment of the prophecy occurrence.
- By discovering the Quran's mathematical miracle, almost all the evidences and proofs presented in this article and elsewhere in this site are expressed in mathematical formulas that has a Dividend and the number 19 as a constant Divisor with zero remainder.

Motivation

- **This divisibility by the number 19 (see 74:30-35) is understood to be a venue by God Almighty to communicate with human race that the pertained phenomenon was under his absolute control. And this has been the Quran's approach to show humans a singularity and by that spectacle people deduct the presence of God and His power and God willing believe in Him and his message to humanity.**

Motivation

- **This does not mean that other events are not under God's absolute control, which they are, while here God chooses to reveal some information about the phenomenon to reassure our mind about Him controlling everything including events that human race is taking pride on building, managing and executing events such as internationally known journey to the planet Moon and bringing Moon soil to earth. This event was considered to be the greatest expression of the technological advancement of human race at the time.**

Chapter 54 opening verses:

The Moon (Al-Qamar) (54)

[54:0] In the name of God, Most Gracious, Most Merciful

[54:1] The Hour has come closer, and the moon has split.*

[54:2] Then they saw a miracle; but they turned away and said, "Old magic."

[54:3] They disbelieved, followed their opinions, and adhered to their old traditions.

[54:4] Sufficient warnings have been delivered to alert them.

Chapter 54 opening verses:

- **[54:5] Great wisdom; but all the warnings have been in vain.**
- **[54:6] Ignore them; the day will come when the caller will announce a terrible disaster.**
- **[54:7] With their eyes humiliated, they come out of the graves like scattered locusts.**
- **[54:8] As they respond to the caller, the disbelievers will say, "This is a difficult day."**

Footnote for 54:1 elaborates as follows :

***54:1 This important sign of the approaching end of the world came to pass in 1969 when humans landed on the moon and brought pieces of the moon to earth. At the same time, God's mathematical Miracle of the Quran was being gradually unveiled. Traditional Muslims opposed it, since it exposed the fallacy of their practices (App. 25).**

Some evidence:

The word Moon repeats in Quran 27 times in 26 verses and the repetition number 19 for the word Moon occurs in verse 1 of chapter 54! (The Moon).

6:77, 6:96, 7:54, 10:5, 12:4, 13:2, 14:33, 16:12, 21:33, 22:18,
25:61, 29:61, 31:29, 35:13, 36:39, 36:40, 39:5, 41:37, **54:1**,
55:5, 71:16, 74:32, 75:8, 75:9, 84:18, 91:2
(19th)

The following number starts by placing the count of verses(26) first, that carries the word Moon in them and then all the sura and verse numbers side by side (concatenated) and the 91digits number is a multiple!

266776967541051241321433161221332218256129613129351336
3936403954137541555711674327587598418912 =

19 * 140..048 (91 Digits!)

Some evidence:

This is chapter 54, it has 55 verses, and its revelation order is 37 while the Gem value for the chapter name is (371) and the following is observed:

$$54\ 55[+] = 19$$

$$54\ 37[+] = 19$$

First verse of the chapter 54 is the number Q4845 verses from the start of the Quran and $4845 = 19 * 255$

$$1969\ 54 = 19 * 10366 \text{ (year of the Moon split and the chapter number)}$$

Gem value for the chapter name = 371 and 37:1 is the first verse in this chapter considering its revelation order!

$$54\ 371\ 54 = 19 * 286166$$

$$54\ 1\ 1\ 17\ 371\ 54 = 19 * 284..166 \text{ (1 \& 17 are the hours for the horns!)}$$

$$54\ 1\ 1\ 17[+] = 19$$

Some evidence:

In the next several slides you can examine a partial astronaut's log (EP-72 Log of Apollo 11) for the Apollo 11 that started at 9:34 AM in July 16th and ended in July 24th after 8 days plus (195 hours, 18 minutes and 35 seconds).

The emphasis on this mission is **on July 21, 1969**, as the astronauts go through their assignments. Pay a specific attention to the hour 1:54 in the log and the event of Lunar Lander detachment time from the surface of the Moon after collecting the Moon soil as part of their mission cargo.

Apollo 11 log, 21/07/1969:

(Astronauts log their time in Universal Time Clock (UTC))

^[11] JULY 21

12:54 a.m.- After checking with Mission Control to make sure all chores have been completed, experiments set up, and photographs taken, Aldrin starts back up the ladder to re-enter the LM.

1:09 a.m.- Armstrong joins Aldrin in the landing craft.

1:11 a.m.- The hatch is closed. The astronauts begin removing the portable life support systems on which they have depended for two hours and 47 minutes.

4:25 a.m.- Astronauts are told to go to sleep, after attending to final housekeeping details and answering a number of questions concerning the geology of the Moon.

9:44 a.m.- Shortly after arousing Collins, still circling the Moon in the Command/Service Module, Mission Control observes: "Not since Adam has any human known such solitude as Mike Collins is experiencing during this 47 minutes of each lunar revolution when he's behind the Moon with no one to talk to except his tape recorder aboard Columbia."

Apollo 11 log, 21/07/1969:

^[11] **JULY 21**

11:13 a.m.- The astronauts in Eagle are aroused. Aldrin announces: "Neil has rigged himself a really good hammock . . . and he's been lying on the hatch and engine cover, and I curled up on the floor."

12:42 p.m.- Answering a question raised before they went to sleep, Aldrin reports: "We are in a boulder field where boulders range generally up to two feet, with a few larger than that... Some of the boulders are lying on top of the surface, some are partially exposed, and some are just barely exposed."

Apollo 11 log, 21/07/1969:

[11] JULY 21

1:54 p.m.- Ascent engine is started and LM, using descent stage as a launch pad, begins rising and reaches a vertical speed of 80 feet per second at 1,000 feet altitude.

Apollo 11 log, 21/07/1969:

^[11] **JULY 21**

1:54 p.m.- Ascent engine is started and LM, using descent stage as a launch pad, begins rising and reaches a vertical speed of 80 feet per second at 1,000 feet altitude.

The astronauts take with them in the ascent stage the soil samples, the aluminum foil with the "solar wind" particles it has collected, the film used in taking photographs with still and motion picture cameras, the flags and other mementos to be returned to Earth. Behind they leave a number of items, reducing the weight of the ship from 15,897 pounds as it landed on the Moon to 10,821 pounds.

The largest item left behind is the descent stage, that part of the landing craft with the plaque on one of its spidery legs. Others include the TV camera, two still cameras, tools used in collecting samples, portable life support systems, lunar boots, American flag, rod support for the "solar wind" experiment instrument, laser beam reflector, seismic detector, and a gnomon, a device to verify colors of objects photographed.

5:35 p.m.- Eagle redocks with Columbia while circling on the back side of the Moon.

7:42 p.m.- The landing craft is jettisoned.

Apollo 11 log, 21/07/1969:

- ***Homeward bound. Armstrong and Aldrin, inside the ascent stage just***
- ***after taking off from the Moon, start the first leg of their return trip***
- ***to Earth, shown above the curving lunar surface.***

The equivalent date for the LM Ascend from the surface of the Moon:

^[11] JULY 21

The logged UTC time for the Ascend event is 1:54 AM on July 21 and the first verse of chapter 54 (The Moon) says:

**[54:1] The Hour has come closer,
and the moon has split.***

And the date for the occurrence of this phenomenon is July 21st 1969

While **21 07 1969 = 19 * 1,109,051**

Considering the verse content

54 + 1 + 21 + 7 + 1969 = 2052 = 19 x 108

The equivalent Lunar date for the LM Ascend from the surface of the Moon:

^[11] JULY 21

The logged UTC time for the Ascend event is 1:54 AM on July 21 and the first verse of chapter 54 (The Moon) says:

**[54:1] The Hour has come closer,
and the moon has split.***

And the date for the occurrence of the phenomenon(1:54 UTC) is Lunar calendar 06/05/1389

06 05 1389 1 54 = 19 *318..166

The equivalent Lunar date for the event is:

The first verse of chapter 54 in Quran is verse number Q4845 and that is = 19×255 . The distance from the end and last verse of the Quran is as follows: $Q6234 - Q4845 = 1389$ that is equivalent to the Lunar date for this event!.

Moreover, in Lunar calendar, the Month 05, and the Day was 06 and the Year is 1389

While $06 + 05 + 1389 = 1400$ Lunar = 1980 Solar and the year 1980 was the year that the Day of the Resurrection was the subject of research in Tuscan, Arizona USA. (See the End of the World page)

A few facts about the Mission Commander Neil Alden Armstrong:

***He was born in 5th of August 1930 and
05 08 1930 = 19 * 267470***

***AT the date of the Prophecy his age was 38
years, 11 months and 17 days = 14231 days and
14231 = 19 * 749***

***And this number is 14231 = 7 * 2033 weeks and
2033 = 19 * 107***

Connection to the Miracle of the Quran:

The Quran's Common Denominator

[74:30] Over it is nineteen.*

[74:31] We appointed angels to be guardians of Hell, and we assigned their number (19) (1) to disturb the disbelievers, (2) to convince the Christians and Jews (that this is a divine scripture), (3) to strengthen the faith of the faithful, (4) to remove all traces of doubt from the hearts of Christians, Jews, as well as the believers, and (5) to expose those who harbor doubt in their hearts, and the disbelievers; they will say, "What did GOD mean by this allegory?" GOD thus sends astray whomever He wills, and guides whomever He wills. None knows the soldiers of your Lord except He. This is a reminder for the people.

Connection to the Miracle of the Quran:

[74:32] Absolutely, (I swear) by the moon.

[74:33] And the night as it passes.

[74:34] And the morning as it shines.

One of the Great Miracles

[74:35] This is one of the great miracles.*

[74:36] A warning to the human race.
