1 AM Rabi II 3rd Lunar Year 1710

And 13 earth days later:

Day of Reckoning (Second Horn):

5 PM December 09th Solar Year 2280

5 PM Rabi II 15th Lunar Year 1710

(Information # 1)

In the page right before the sheet of “CONTENTS” of the Quran Translation, Rashad refers to a historical event regarding the clash of Karbala and the decimation of Muhammad’s grandson (Hussein) and his family, It reads as follows:

.....

During the (Quran) re-arrangement process, the scribes who idolized the prophet added two verses at the end of sura 9, the last sura revealed in Medina. This blasphemous act resulted in a 50-year war between Ali Ibn Abi Taaleb and his supporters on one side and the distorters of the Quran on the other side. The war ended when Hussein Ibn Ali and his family were martyred in Karbala.

.....

***The date of the onslaught was:
9th of Muharram of the year 61 AH***

This day is called “Tasua” (9th day) followed by the day of “Ashura” (10th day) that is a particularly famous day among Muslim community and a day of mourning among Shiia sect.

Please pay attention to the correlation between Quran Sura 9 where the distortion schemed and the date of “9th of Muharram” that this carnage occurred to silence the objection.

(Information # 2)

In Military Jargons “Time” is expressed with 4 digits Like this: (00 00)

2 Digits to represent Hour (00 to 24)

2 Digits to represent Minutes (00 to 59)

(No Seconds!)

The Examples are:

***(1) 1345 and read as (1300, 45), Hour = 1 PM
and 45 minutes.***

***(2) 0030 and read as (00 30), Hour = 12 AM
and 30 minutes after the midnight (AM).***

(3) 1400 and read as (1400), Hour = 2 PM.

(Information # 3)

According to Quran there are 4 Sacred months (12, 1, 2, 3) in a Lunar year and they are:

***Dhul-Hajjah, Muharram, Safar & Rabi I
They shall be observed by all the
submitters as the time of peace,
tranquility, Hajj ritual observation and
reflection on one God alone.***

****The word of Muharram means “Sacred”
by itself.***

[2:217] They ask you about the Sacred Months and fighting therein: say, "Fighting therein is a sacrilege. However, repelling from the path of GOD and disbelieving in Him and in the sanctity of the Sacred Mosque (Masjid), and evicting its people, are greater sacrileges in the sight of GOD.....

(Information # 4)

According to Quran Friday is the day of noon communal “Juma Prayer” and shall be observed by all the submitters:

Important Commandments to All Believers

[62:9] O you who believe, when the Congregational Prayer (Salat Al-Jumu'ah) is announced on Friday, you shall hasten to the commemoration of GOD, and drop all business. This is better for you, if you only knew.

[62:10] Once the prayer is completed, you may spread through the land to seek GOD's bounties, and continue to remember GOD frequently, that you may succeed.

Gog & Magog....

The Return....

****18:94-98 One of my duties as God's Messenger of the Covenant is to state that Gog and Magog, the final sign before the end of the world, will reappear in 2270 AD (1700 AH), just 10 years before the end. Note that Gog and Magog occur in Suras 18 and 21, precisely 17 verses before the end of each sura, representing 17 lunar centuries (see 72:27 and Appendix 25).***

Gog and Magog*

[18:94] They said, "O Zul-Qarnain, Gog and Magog are corruptors of the earth. Can we pay you to create a barrier between us and them?"

Sura 18 has 110 verses, then:

[94 → 110] = 17

****21:96 By the year 2270 AD, thanks to God's mathematical miracle in the Quran (Appendix 1), America will be the heart of Islam, and billions around the globe will have believed in the Quran (9:33, 41:53, 48:28, 61:9). Gog and Magog (allegorical names of villainous communities), will be the only bastions of heathenism, and they will attack the submitters. That is when the world will end (15:87, 18:94, Appendix 25). Gog and Magog are mentioned in 18:94 & 21:96, 17 verses before the end of each sura; this may indicate the time of their appearance.***

Gog and Magog*

[21:96] Not until Gog and Magog reappear,* will they then return--they will come from every direction.

Sura 21 has 112 verses:

[96 → 112] = 17

Appendix 25: *The End Of The World*

.....

6. Gog and Magog: they re-appear, in accordance with God's plan, in the year 1700 AH (2271 AD). Gog and Magog are mentioned in 18:94 and 21:96. If you count the verses from 18:94 to the end of Sura 18, you find them 17. If you count the verses from 21:96 to the end of Sura 21, you find them also 17. This is the Quran's sign that Gog and Magog will re-appear in 1700 AH.
