

In the name Of God Most Gracious Most Merciful

The Smoke, A Major Prophecy (2/3)

Questions & Suggestions:

Summer Of 2019

AmazingQuran19@gmail.com

Rashad Khalifa (Smoke Article)

Submitter Perspective (March 1990)

- Rashad wrote in a short article titled:

- *“HERE IS WHAT WILL
HAPPEN TO THE DISBELIVERS”*

- He essentially predicted that the prophecy of Quran (Day Of Smoke) mentioned in 44:10 to 16 will happen with the strike of an asteroid to earth.
- This article published in Submitter Perspective in March 1990 about 2 month after his passing!

*[44:10] Therefore, watch for the day when
the sky brings a profound smoke.**

Summary of the predictions in the “Smoke article”

- 1- A massive asteroid will hit somewhere in Middle East.*
- 2- The resulting heat will burn living organisms within a 100-mile radius.*
- 3- Total devastation will envelope the Arab world, main opponents of God, His miracle, and His Messenger of the Covenant (9:97, 3:81, 33:7).*

Summary of the predictions in the “Smoke article”

4-The Quranic prophecy in 44:10-15 will come to pass: A giant dust cloud will envelope the whole world and obscure the sun for a few months.

5- In fulfillment of 17:92, the Arabs will mock and ridicule this prophecy.

6- When will this happen? I do not know when; but I have a strong feeling that this will take place before the end of 1990. Only God knows the exact time.

So what has happened to the “Smoke prophecy?”

Off Course the Prophecy as the Quran refers to it as a global disaster did not happen as suggested and we have no solid proof that the Smoke Prophecy has occurred since 1990 either.

The Smoke: A Major Prophecy*

[44:10] Therefore, watch for the day when the sky brings a profound smoke.*

[44:11] It will envelop the people; this is a painful retribution.

[44:12] "Our Lord, relieve this retribution for us; we are believers."

What do we know so far about “Smoke Prophecy?”

- 1- We know that a massive asteroid will hit the earth and causes a major disaster.*
- 2- The asteroid strike will generate a major plume of smoke that will envelop the entire earth.*
- 3- God will relieve the painful retribution after a while.*
- 4- This happens as a reminder for the disbelievers.*
- 5- Unlike the other two prophecies of the “End Of The World” and “The Return Of The Gog & Magog” there are almost no specific guiding clues for the date range of the Smoke Prophecy.*

Can we calculate the date of the “Smoke Prophecy?”

*For the “**End Of the World**” prophecy the overlap of the year 2280 solar and the year 1710 lunar was suggested by the Messenger of the Covenant and that was the pivotal bases for the calculation of the time and date of the prophecy that are as follows:*

(see Quran, the related footnotes and appendix 25)

First Horn : (Beginning Of The End)

Saturday 1 AM, November 27 of the year 2280 solar

As Sabat 1 AM, Rabi-al Thani 3 of the year 1710 lunar

Second Horn : (13 Days Later, The Actual Resurrection)

Thursday 17 PM, December 09 of the year 2280 solar

Al kha mis 17 PM, Rabi-al Thani 15 of the year 1710 lunar

Note: All times and dates are based on Greenwich Universal Time (UTC)

Can we calculate the date of the “Smoke Prophecy?”

For the “Return Of the God & Magog” the year 2270 (1700 lunar) was suggested as the beginning of the war and the end of the warfare on the year 2271 (1700 lunar) by the Messenger of the Covenant and that was the foundation for the calculation of the Time and Date of the Prophecy that is as follows: (see Quran, related footnotes and appendix 25)

Start Of the War:

Friday 14 PM, December 23 of the year 2270 solar

Al jum ah 14 PM, Muharram 09 of the year 1700 lunar

End Of the War: (19 Days Later)

Wednesday 14 PM, January 11 of the year 2271 solar

Al ar ba a' 14 PM, Muharram 28 of the year 1700 lunar

Note: All times and dates are based on Greenwich Universal Time (UTC)

Can we calculate the date of the “Smoke Prophecy?”

For the “Smoke Prophecy” no such clues similar to date span/overlap are hinted on.

We only know that the prophecy is going to happen after the coming of the well educated “Messenger of the Covenant”.

Due to the nature of the Smoke Prophecy it shall happen in one day only (asteroid strike) while the ramification of such disaster will linger on the entire earth for a while as Quran is suggesting.

(see Quran, the related footnotes and appendix 25)

*[44:10] Therefore, watch for the day when
the sky brings a profound smoke.**

Can we calculate the date of the “Smoke Prophecy?”

My hunch is the already left behind information from the Messenger of the Covenant and resulting calculations for the other two prophecies shall help identifying the “Smoke Prophecy” day as well.

Statically, several viable days are anticipated to be the result of this computational research.

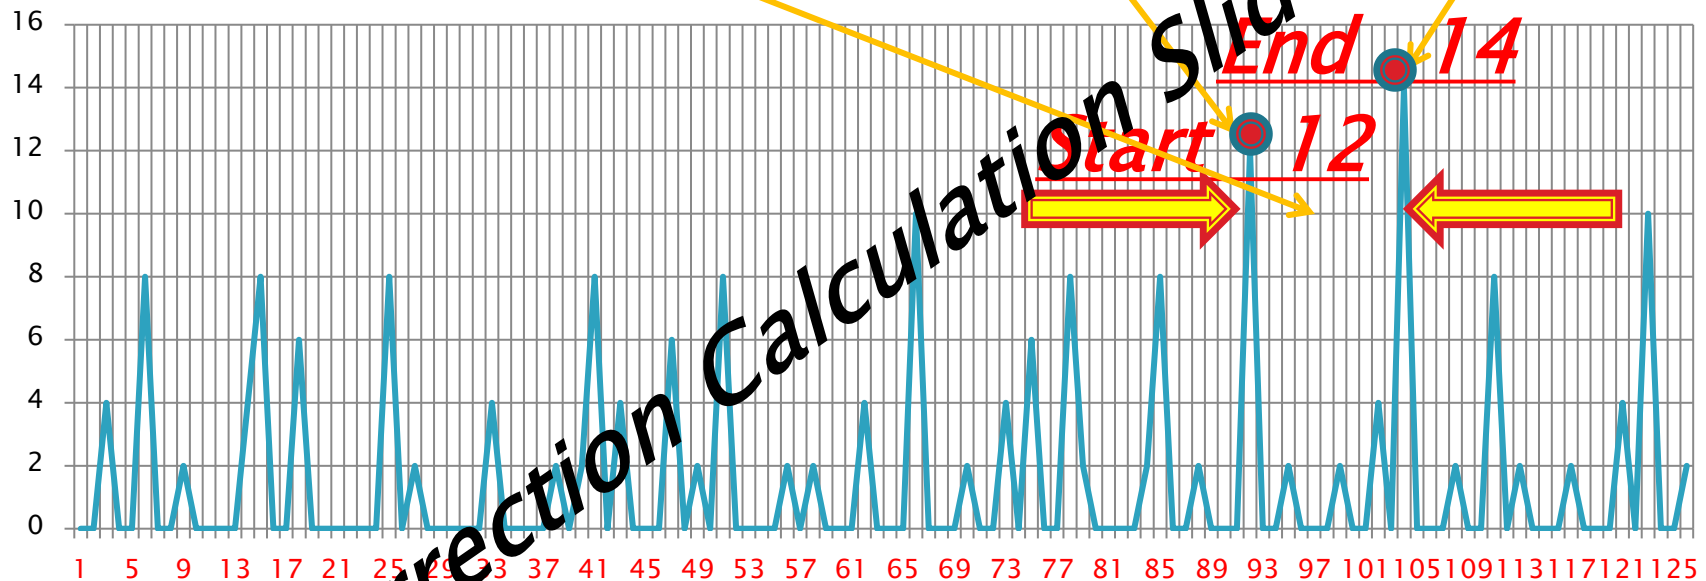

In that situation, that unique day for the “Smoke prophecy” needs to be identified according to additional circumstantial signs and information.

Can we calculate the date of the “Smoke Prophecy?”

- *The Messenger Of The Covenant left us with information about the Physical Nature of the event that is an Asteroid Impact! And it's approximate impact location in Middle East region!*
- *While the Messenger Of The Covenant did not leave us with any information about the absolute or approximate date of the “Day Of Smoke Prophecy” occurrence.*
- **The question is why he did not have that information to share with us!?**

Can we calculate the date of the “Smoke Prophecy?”

- *The answer to the above question is that*
- ***HE DID NOT NEED TO!...** Because the answer is in the solution of the other two prophecies as far as suggested time and date of their occurrences is concerned!?*
- *According to the recent work/slides just showed, the other two global events will be happening on days with Significant Calculation Measure of 12 to begin with and a Significant Calculation Measure of 14 to end with!*
- *(A pattern emerged and noticed hereby)*

Can we calculate the date of the “Smoke Prophecy?”

- *Quran says “The Day Of Smoke” will happen after the appearance of the messenger of the covenant according to these verses:*

God's Messenger of the Covenant*

[44:13] Now that it is too late, they remember! An enlightening messenger had come to them.*

[44:14] But they turned away from him, saying, "Well educated, but crazy!"

*An Image from The **Beginning Of The Data Set Of**
291 Years From The Date Of February 1,1990 To
The Day Of Resurrection On December 9, 2280.*

*Starting Date Of February 1,1990 Is One Day After The Passing Of
The Messenger Of the Covenant On 31-01-1990 = 19 * 1,632,210*

*An Image From The Ending Of The Data Set Of
291 Years or 106233 recorded days*

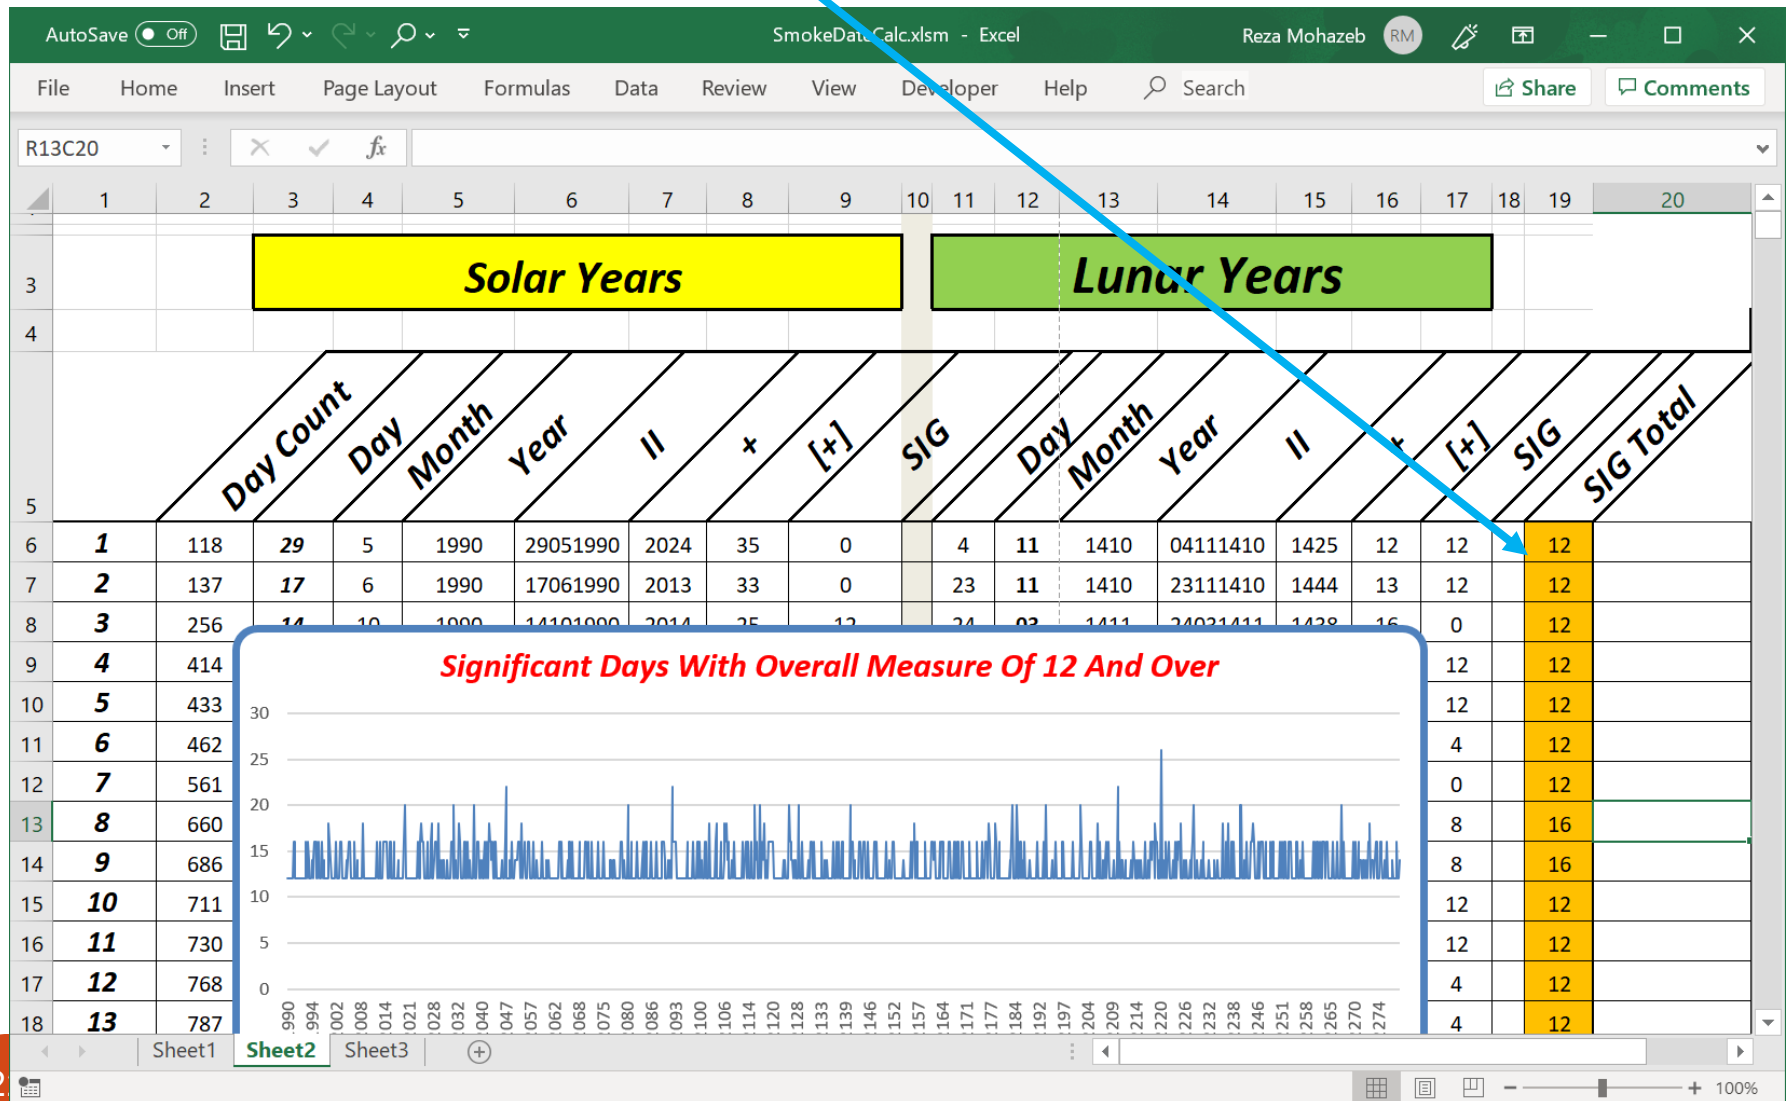

The screenshot displays an Excel spreadsheet titled "SmokeDateCalc.xlsm" with a ribbon at the top containing tabs for File, Home, Insert, Page Layout, Formulas, Data, Review, View, Developer, and Help. The spreadsheet is divided into two main sections: "Solar Years" (yellow background) and "Lunar Years" (green background). Both sections have columns for Day Count, Day, Month, Year, II, +, [+], and SIG. The "SIG" column is highlighted in yellow. A blue arrow points to the "SIG" column in the "Solar Years" section. The spreadsheet interface includes the ribbon at the top and the status bar at the bottom showing "Sheet1" and "100%" zoom.

Can we calculate the date of the “Smoke Prophecy?”

- *The Entire Data Set of **291 years** is equal to **106,233 Days** that is after the messenger of the covenant to the last day on earth on December 9th, 2280*
- *So, NO SINGLE DAY Is Overlooked Here!?*
- *According to the perceived similarity of the Smoke Prophecy to the other two mentioned prophecies the work is focused on events that has a significance value of 12 or more for a day.*

A Filtered Sample Of the Entire Data Set Of 1331 Days With Significance Measure of 12 and More

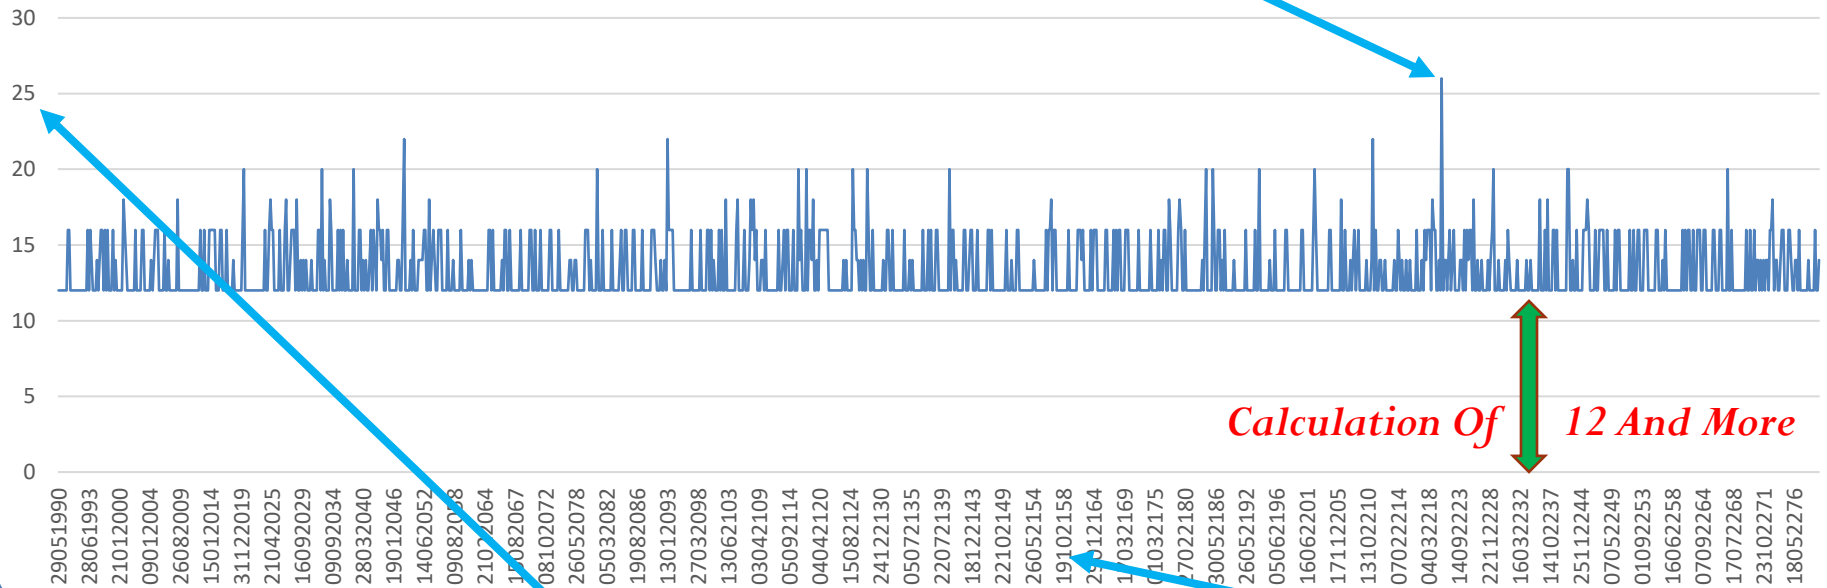

Can we calculate the date of the “Smoke Prophecy?”

- *So, the work was required to investigate the entire set of 106,233 days and calculate the aggregation of Significance Measures for Solar and Lunar dates for each day.*
- *The investigation was logically perceived to have an expected several equal max values in such a large pool of data set to work with as the research effort began.*

*The Only Maximum (Value26) In The Entire Data Set
(An Obvious and Unique Answer!)*

Significant Days With Overall Measure Of 12 And Over

Calculation Of 12 And More

*Date Significance Measure
0 to 28*

*Solar Dates
DDMMYYYY*

What Is Noticeable About This Significance Measure Value Of 26?

Reason No. 1

Significant Measure Of 26 Is The Only and Only maximum Value (No Duplicates!) Calculated In the Entire 106,233 Data Set!

An obvious answer to The Question
Of Targeting
“The Day Of Smoke!?”

12 For Start 14 For End Total 26 For 12 + 14

What Is Noticeable About This Significance Measure Value Of 26?

Reason No. 2

$$\underline{26 = 12 \text{ For The Event Start} + 14 \text{ For The Event End}}$$

It Is Consistent with The Other
two Prophecies Of
“End Of The World” and
“Return Of The Gog & Magog”
ONLY Occurring in One Day!?

What Is Noticeable About This Particular Day In the Database?

Reason No. 3

The Number Of Days Between This Particular Day and the First Horn For The “End Of The World” Prophecy is precisely 22,078 Days and!

$$22078 = 19 * 1162$$

$$22078[+] = 19$$

What Is Noticeable About This Significance Measure Value Of 26?

This is an independent confirmation of the messenger's inspirations for the nature of this global event of "The Day Of Smoke" while it also reveals the exact date and time of the event as well.

The result of this work is also a mutual confirmation for the outcome of this prophecy and the other calculations previously presented for the "End Of The World" and the "Return Of The Gog & Magog" prophecies.

Can we calculate the date of the “Smoke Prophecy?”

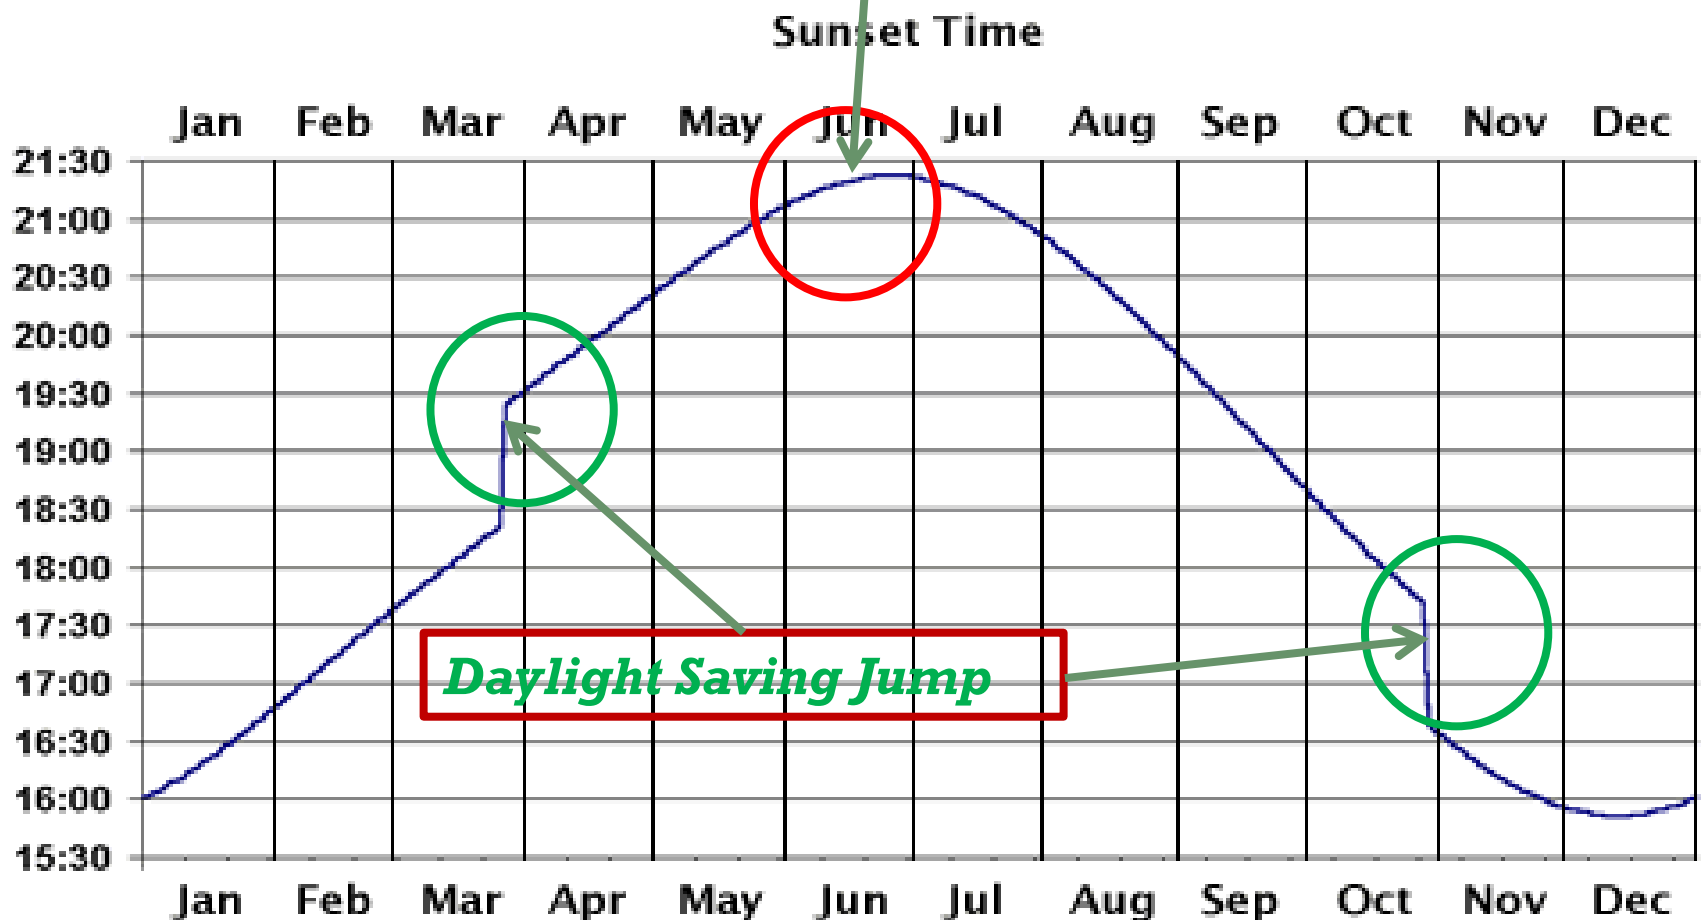

- *This means that we could not have had any resolution for the date of the*
- *“**Day Of Some Prophecy**” unless we already have the answer for the*
- *“**End Of The Wrold Prophecy**” and the*
- *“**Return Of The Gog & Magog Prophecy**”*
- *which for both we already have a clear/concise and undisputed answer!*
- *Since the year 2015 when the first solution about these subjects came about, there has NOT been any credible refutation of the facts mentioned in either prophecies, Time and Date calculations.*

What Is Noticeable About This Significance Measure Value Of 26?

- We Have Identified A Very Special Day That An Event Will Begin And End On The Same Day!
- We were looking for one Special Day in a large data set of 291 years and with God's grace we found only ONE unambiguous DAY that fits the profile!?

It Is Consistent With The Description Of The Messenger Of The Covenant of An Asteroid Hitting The Earth!

***London Greenwich Sunset Time in a Year
(Beginning of the Lunar Day (20:25 PM, no daylight
saving) on June 16, Hour Count starts at the next full
hour 21:00 or 9:00 PM)***

“The Day Of Smoke Prophecy” Will Happen on the Following Date

201 Years From The First Date Of This Presentation
On This Year Of 2019

Friday June 16th, Year 2220

And The Hour Would Be 9 PM
16/06/2220

Based On Universal Time Clock (UTC)
(The Zero Longitude Passes Through London, England)

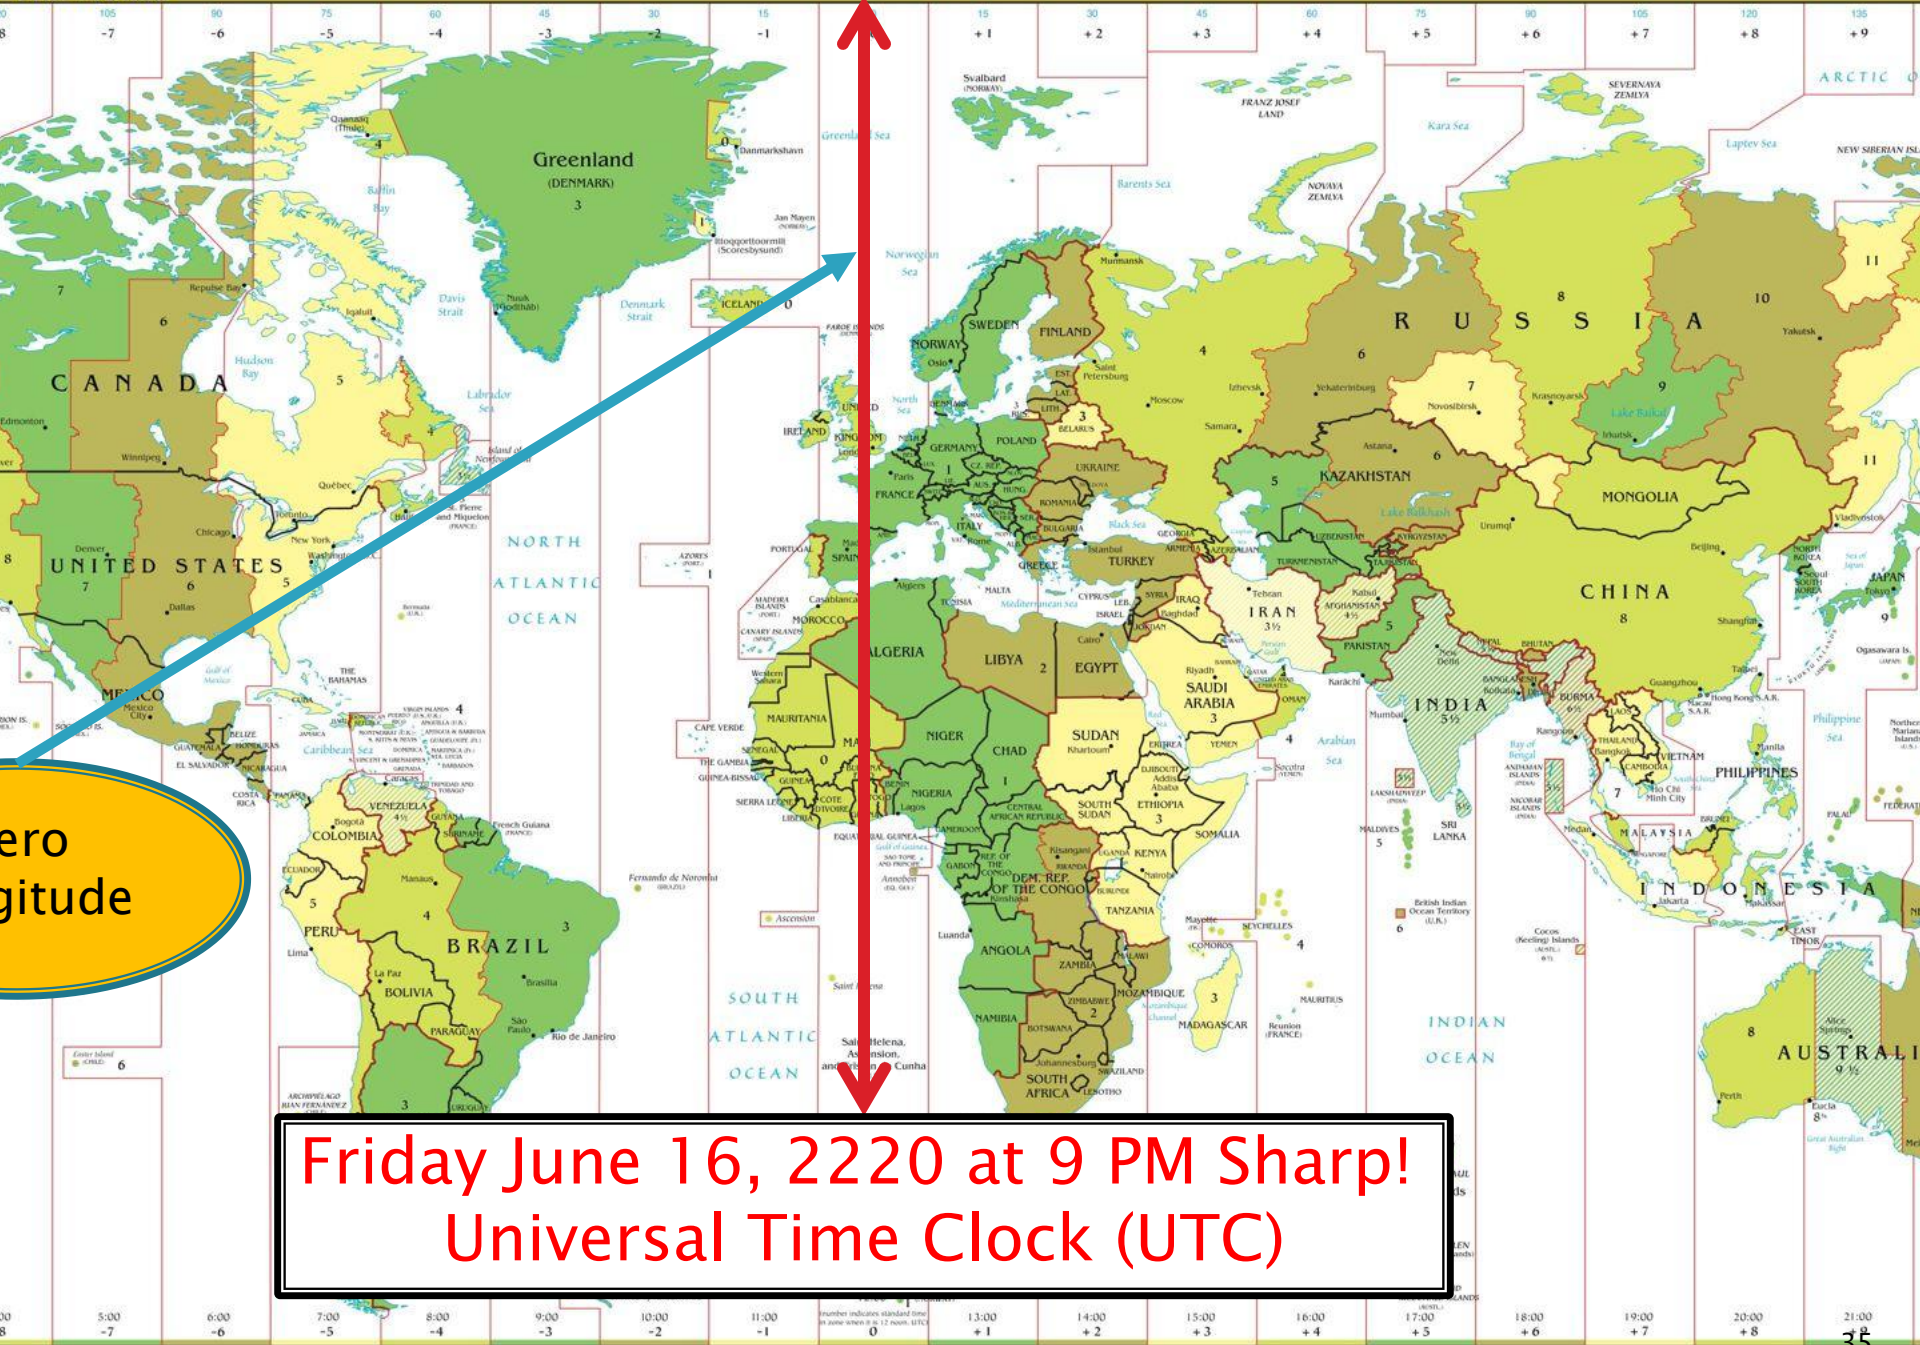

“The Day Of Smoke Prophecy”
Will Happen on the Following Date

The Mentioned Date is Equivalent To:

Juma Dhul-Hajja 13th , Year 1647

**And The Hour Would Be 9 PM
13/12/1647**

**Based On Universal Time Clock (UTC)
(The Zero Longitude Passes Through London, England)**

*[44:10] Therefore, watch for the day when
the sky brings a profound smoke.**

PEACE &
GOD BLESS YOU
The End 😊
