

In the name of God, Most Gracious, Most Merciful

*The Sequence Of Events,
The First And The Second Blow*

AmazingQuran19@gmail.com

August 27th 2016

The work of Rashad Khalifa has been elaborated in his translation of the book of Quran and its appendix 25.

Rashad Khalifa's work is concluded by identifying the year of Resurrection in Solar year 2280 and Lunar year 1710.

The following is an extrapolation of Rashad Khalifa's work to identify the Day and the Hour of Resurrection as Quran is consistently referring to.

Past presidents in Quran prophecies is the blueprint of the work being conducted here.

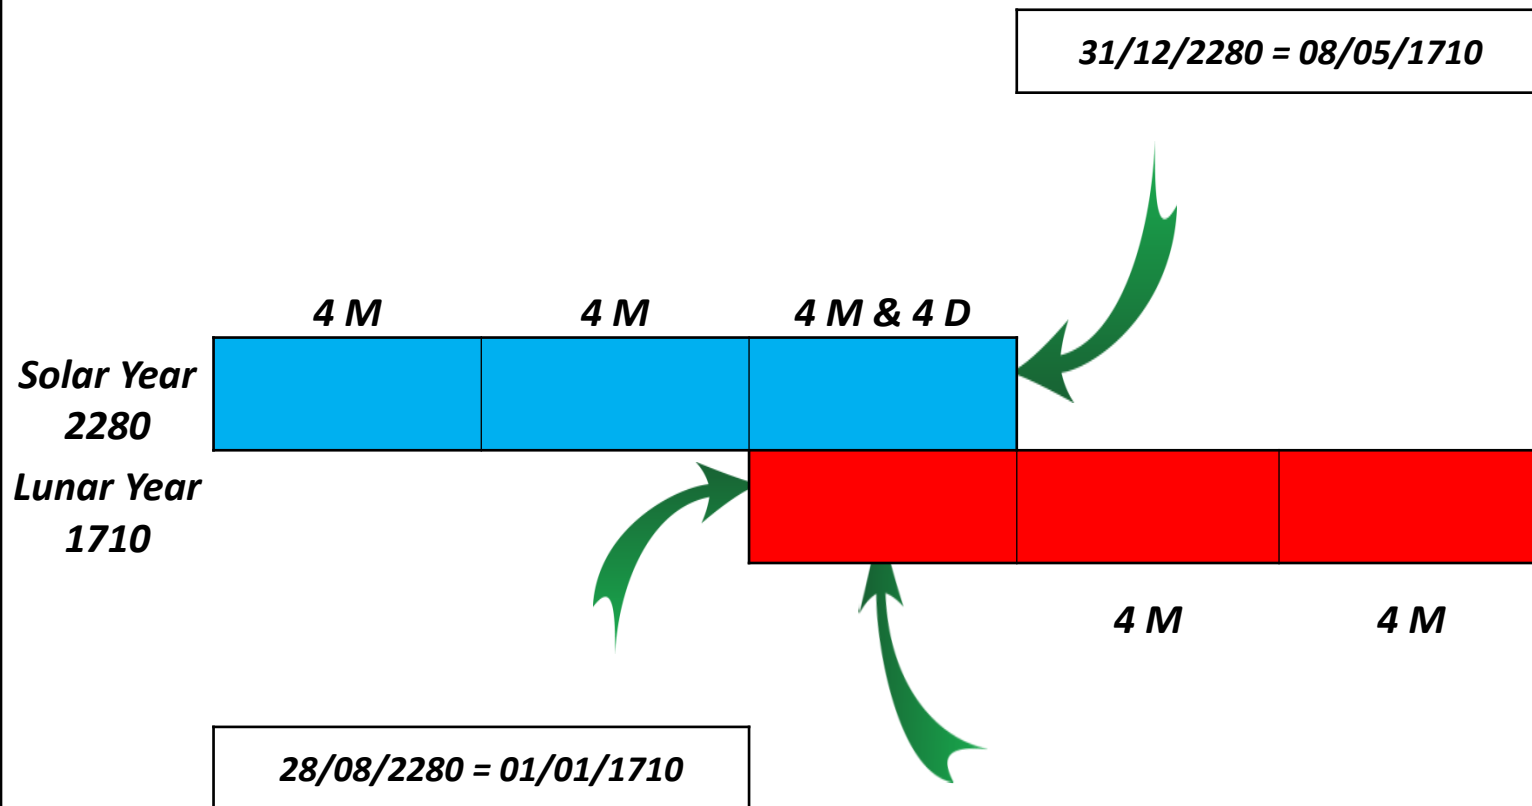

I have used the original presentations for every subject while I have updated the information as new data and questions were being answered through years from the original presentation the year 2015.

All the calculations on Days and Hours are based on UTC time or Universal Time Clock. Every geographical location shall adjust accordingly.

Starting this effort from the results of Rashad Khalifa's research on this subject, the OVERLAP of the two years Solar year 2280 and Lunar year 1710 (The only 2 calendars supported by Quran) is under investigation.

According to Quran the Day of Judgment comprises of two blows of a horn, First and Second Blow (See 39:68,69).

The Years 1710 and 2280 and their Calendar Overlap

Day of Resurrection Shall Occur Sometime In This Overlapped Period

***In search of Dates In the Overlap Period That are a multiple of 19:
(A methodology to compare Date elements data)***

***(1) If the Addition of Digits in the Date components
($D+D + M+M + Y+Y+Y+Y$ [+]) is a multiple of 19, it
gets a Blue Check Mark ( and **2** points).***

***(2) If the Addition of Date components
($DD + MM + YYYY$) is a multiple of 19, it gets a
Purple Check Mark ( and **4** points).***

***(3) If placing the Date components side by side
($DD\ MM\ YYYY$) is a multiple of 19, it gets a
Green Check Mark ( and **8** points).***

****19***

All the Dates in the Overlapped Period that are a Multiple of 19

	DD/MM/YYYY (Solar 2280)			DD/MM/YYYY (Lunar 1710)		
	28/08/2280			01/01/1710		
				-		
1-	02/09/2280	✓	8	06/01/1710		
2-	11/09/2280			15/01/1710	✓	8
3-	21/09/2280	✓	8	25/01/1710		
4-	07/10/2280			11/02/1710	✓	8
5-	17/10/2280	✓	8	21/02/1710		
6-	01/11/2280			07/03/1710	✓	
7-	13/11/2280	✓	8	19/03/1710		
8-	20/11/2280			26/03/1710	✓	8
9-	27/11/2280	✓	4	03/04/1710	✓	8
10-	09/12/2280	✓	8	15/04/1710	✓	6
11-	16/12/2280			22/04/1710	✓	8
12-	28/12/2280	✓	8	05/05/1710	✓	2
				-		
	31/12/2280			08/05/1710

Check Mark For Both Dates With Maximum Points (Most Probable)*

9-

27/11/2280

03/04/1710

**For Item 9, above we have the following
total of 12 points:**

For Solar Calendar Year:

$$27 + 11 + 2280 = 2318 = 19 * 122$$

4 Points

For Equivalent Lunar Calendar Year:

$$03\ 04\ 1710 = 19 * 160,090$$

8 Points

*The Only Two Dates In The Overlapped Period With
Check Mark For Both Dates With Maximum Points (Most Probable)*

10-

09/12/2280

15/04/1710

For Item 10, above we have the following total of 14 points:

For Solar Calendar Year:

09 12 2280 = 19 480120*

8 Points

For Equivalent Lunar Calendar Year:

*15 + 04+ 1710 = 1729 = 19 * 91*

4 Points

For Equivalent Lunar Calendar Year:

1+5+0+4+ 1+7+1+0 = 19

*Time Chart of the Overlapped Period (4 month and 4 Days)
for The Years 2280 Solar and 1710 Lunar*

13 Days
Date
Difference

***London Greenwich Sunset Time in a Year
(Beginning of the Lunar Day (18:56PM, no daylight
saving) on August 28, Hour Count starts at the next full
hour 19:00 or 7:00 PM)***

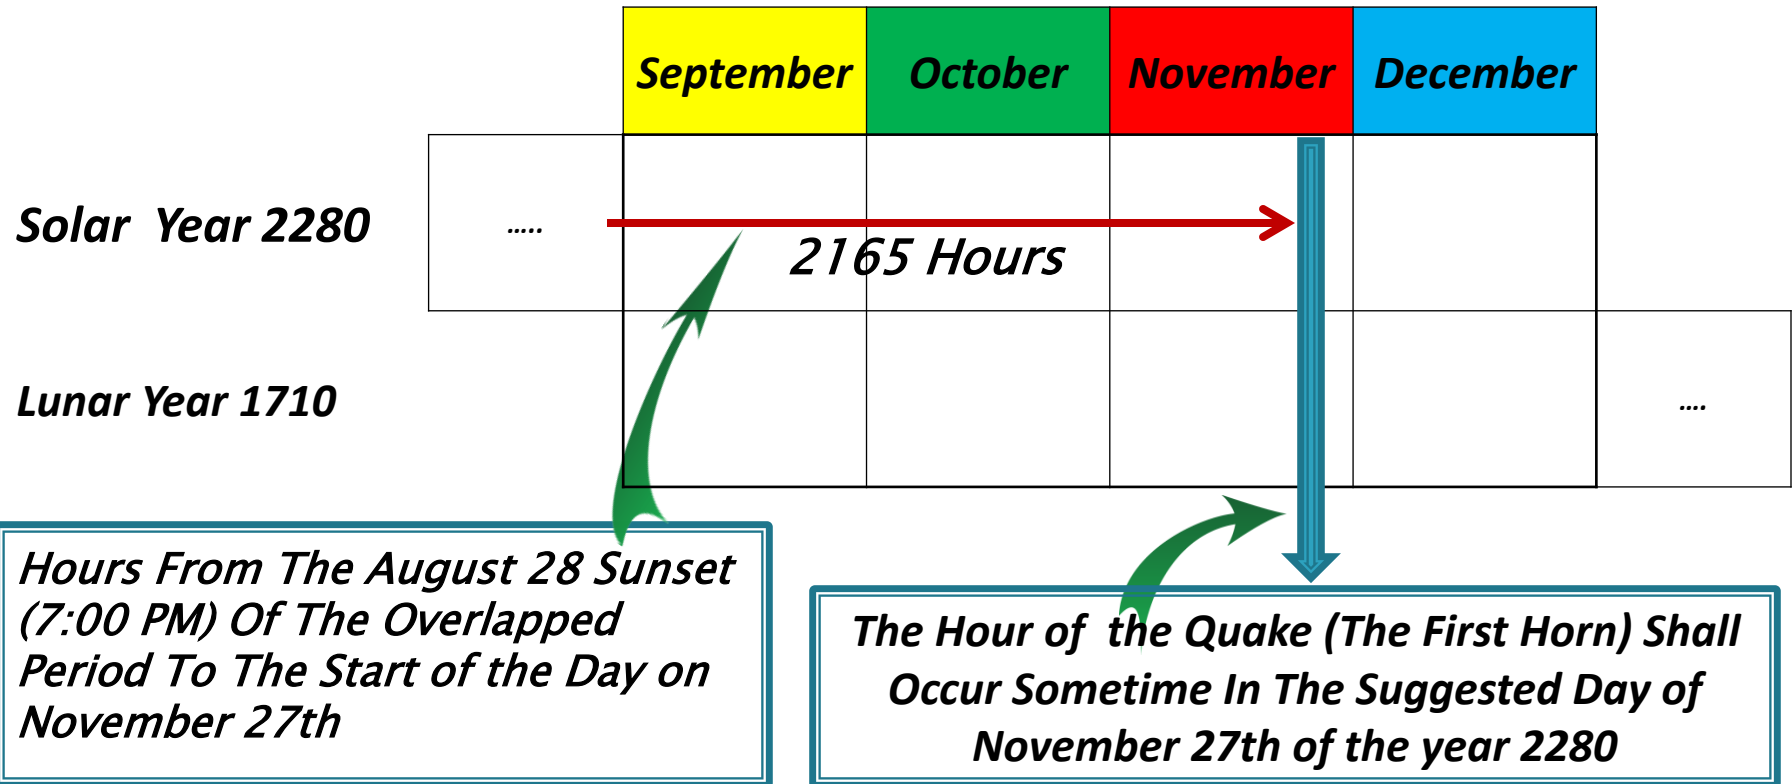

***The Overlap Of a Solar Day
and Lunar Day starts at the
Sunset***

***On August 28, 2280, the
Sunset is at 6:54 PM UTC***

(No Daylight-Saving Time is Considered)

***The first Complete hour of
the Overlap is 7:00 PM UTC***

The 4 Months, 4 Days Overlapped Period Magnified

The Hour of Quake (The First Horn) Shall Occur One Hour (1:00 AM) into the Day

$$2165 + 1 = 2166 = 19 * 114 = 19 * 19 * 6$$

The Day of Resurrection (First Event) is on:

Saturday November 27th,
Year 2280

And "The Hour" is :

One Hour after the Midnight

Based on Universal Time Calendar (UTC)

(The Zero Longitude Passes Through London, England)

(Daytime Saving Time Adjustment is not considered)

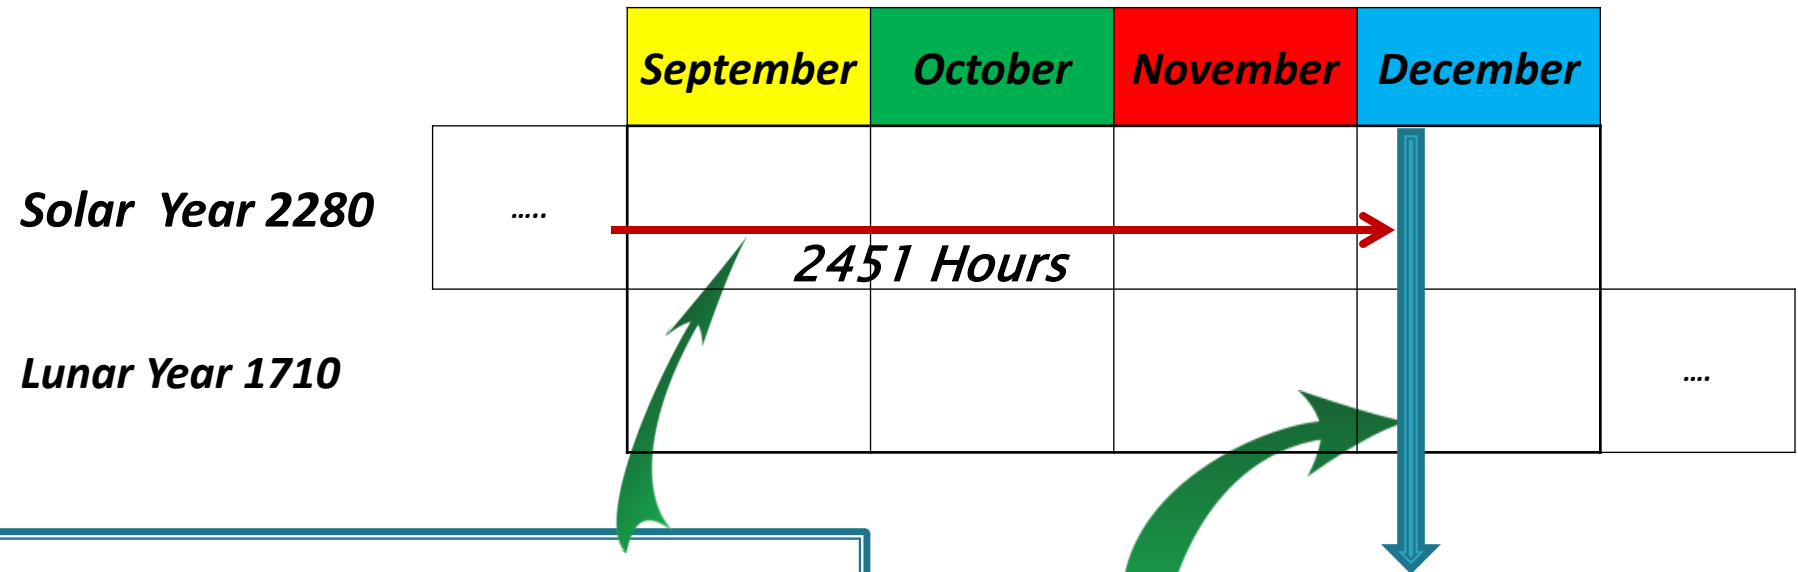

***So, the calculated Date for The
First Event (First Blow) is :***

***Saturday November 27th
of the Solar year 2280
27/11/2280***

And that is the same as the:

***Saturday Rabi Al Thani 3rd
of the Lunar year 1710
03/04/1710***

The 4 Months Overlap Period Magnified

Hours From The August 28 Sunset (7:00 PM) Of The Overlapped Period To The Start of the Day on December 9th

The Hour of Resurrection (The Second Horn) Shall Occur Sometime In The Suggested Day of December 9th of the year 2280

The Actual Hour of (The Second Horn) Shall Occur 17 (5:00 PM) Hours Into the Day

$$2453 + 17 = 2470 = 19 * 130$$

The Day of Resurrection (Second Event) is on:

*Thursday December 9th,
Year 2280*

And The “Hour” Is:

*17 Hours after the Midnight
(5:00 PM)*

Based on Universal Time Calendar (UTC)

*(The Zero Longitude Passes Through London, England)
(Daytime Saving Time Adjustment is not considered)*

***So, the calculated Date for The
Second Event (Second Blow) is :***

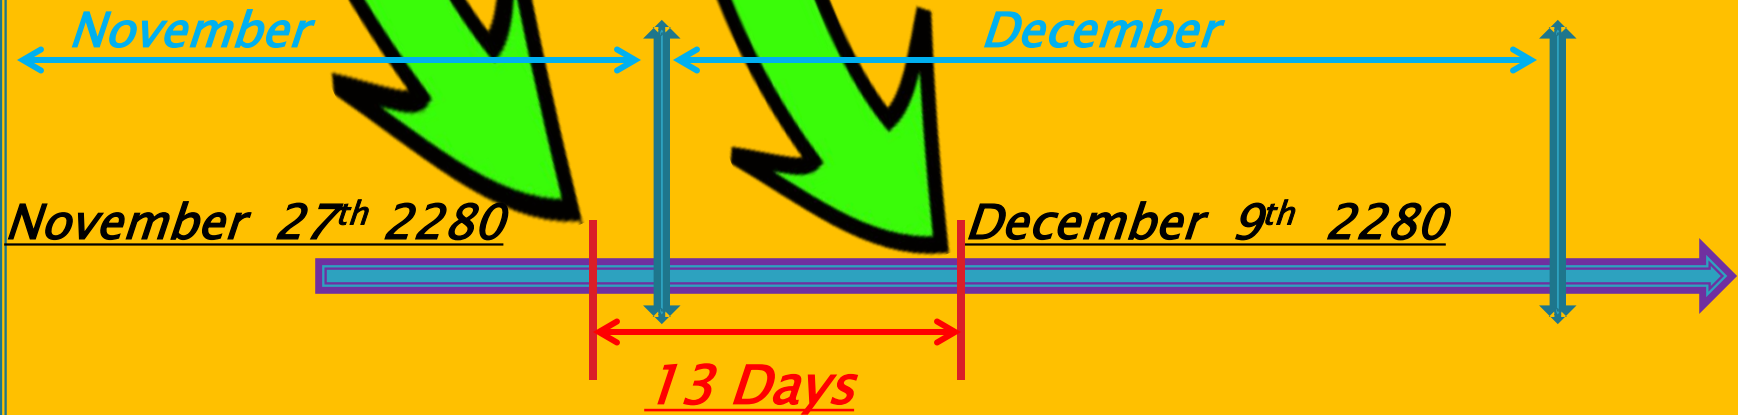

***Thursday December 09th
of the Solar year 2280
09/12/2280***

And that is the same as the:

***Thursday Rabi Al Thani 15th
of the Lunar year 1710
15/04/1710***

The Date/Time Difference Between The Two Adjacent Dates In The Overlapped Period

9-	11/27/2280	✓	04/03/1710	✓	12 Points
10-	12/09/2280	✓	04/15/1710	✓	14 Points

$$304 \text{ Hours} = 19 * 16$$

*The Date/Time Difference Between The Two Adjacent
Dates In The Overlapped Period*

There are:

13 Days

304 Hours = 19 * 16

18,240 minutes = 19 * 960

1,094,400 Seconds = 19 * 57600

Between:

**1:00 AM Saturday November 27th of the
Year 2280**

And

**5:00 PM Thursday December 09th of the
Year 2280**

Saturday November 27, 2280, at 1:00 AM Sharp!
And 13 Days Later at
Thursday December 9, 2280, at 5:00 PM Sharp!
