Quran's 19-Based **Mathematical code**

Motivation

- **The following slides are here to present the reasoning behind the fact that why Quran has a mathematical code based on the common denominator of the number 19.**
- **There would be a collection of all the evidences and related information to this fact and most likely more bullet point events will be added at a later time as we collect and or discover pertinent information to this astonishing phenomenon.**

3 Motivation

- **The number 19 is the common denominator of the count of letters, words, verses, chapters, phrases, in so many various ways that they can be combined and or corelated.**
- **By discovering the Quran's mathematical miracle, almost all the evidences and proofs presented in this article and elsewhere in this site are expressed in mathematical formulas that has a Dividend and the number 19 as a constant Divisor with zero remainder.**

4 Motivation

- Some simple to understand facts about the Quran and the number **19** as the common denominator are as follows:
- The number of chapters are $114 = 19 * 6$.
- The first statement of the Quran is **19** letters.
- The count of verses is $6346 = 19 * 334$.
- The famous first revelation(96:1-5) are **19** words.
- These **19**-worded first revelation is 76 letters.
- Chapter 96, first in revelation has **19** verses.
- There are 30 different whole numbers mentioned in Quran and the total is $162146 = 19 * 8534$

5 Motivation

- The count of the word God (Allah ﷻ) in the entire Quran is $2698 = 19 * 142$.
- The verse Basmalah occurs 114 times, despite its absence from chapter 9 (it occurs twice in chapter 27 and $114 = 19 * 6$
- From chapter 9 to chapter 27 there are 19 chapters.
- The summation of 9 to 27 is $342 = 19 * 18$
- The last revelation (chapter 110) has 19 words.
- The first verse of the last revelation is 19 letters.

6 Motivation

- While the book of Quran was authored by almighty God to guide humanity (by elevating their souls) the encoded mathematical code based on the number 19 has protected the physical scripture of the Quran from alterations throughout the centuries since its revelation in 610 AD.

7 Motivation

- This common mathematical code also proves that this book is authored by God as is proclaimed in many verses of the Quran such as 45,46:2

[46:2] The revelation of this scripture is from GOD, the Almighty, Most Wise.

- Also this verse at 98:2

[98:2] A messenger from GOD is reciting to them sacred instructions.*

8 Motivation

- This common mathematical code also proves that this book is also coded just like other revelations from God such as Torah that is mentioned in this verse of 46:10

[46:10] Say, "What if it is from GOD and you disbelieved in it? A witness from the Children of Israel has borne witness to a similar phenomenon,* and he has believed, while you have turned arrogant. Surely, GOD does not guide the wicked people."

9 Why the number 19

- The gematrical (number equivalent to a letter) value for the word “WAHHD واحد” (means the one and the only) is calculated as follows:
- 6 for the letter W “و”
- 1 for the letter A “ا”
- 8 for the letter HH “ح”
- 4 for the letter D “د”
- The summation of the above four numbers are
$$6+1+8+4 = 19$$
- See the next page for the Gematrical table of all the Arabic language letters.

10 Why the number 19

- The gematrical (number equivalent to a letter) value for all the letters in Arabic language is as follows:

Table of Sequential & Gematrical Values of the Arabic Alphabet

Sequential Value	1	2	3	4	5	6	7	8	9	10	11	12	13	14

Motivation

- In chapter 10 of the Quran and verse 20 we see the following:

Miracle of the Quran to be Unveiled After Muhammad*

[10:20] They say, "How come no miracle came down to him from his Lord?" Say, "The future belongs to GOD; so wait, and I am waiting along with you."

Motivation

- Let us take a look at the footnote for this verse:

****10:20 In retrospect, we see now that the Quran's miracle, indeed "One of the greatest miracles" (74:30-35), was divinely predestined to be unveiled 14 centuries after Muhammad. In view of the current condition of the traditional Muslims, if Muhammad had been given this miracle, those Muslims, who are already idolizing Muhammad beside God, would have worshiped him as God incarnate. Additionally, this miracle is obviously designed for the computer age, and to be appreciated by mathematically sophisticated generations.***

Motivation

- In chapter 74 of the Quran and verses 30 and 31 the secret is being revealed as we see the following:

The Quran's Common Denominator

***[74:30] Over it is
nineteen.****

Motivation

- In chapter 74 of the Quran and verses 30 and 31 the secret is being revealed as we see the following:

[74:31] We appointed angels to be guardians of Hell, and we assigned their number (19)

**(1) to disturb the disbelievers,
(2) to convince the Christians and Jews (that this is a divine scripture),
(3) to strengthen the faith of the faithful,
(4) to remove all traces of doubt from the hearts of Christians, Jews, as well as the believers, and
(5) to expose those who harbor doubt in their hearts,
and the disbelievers; they will say, "What did GOD mean by this allegory?" GOD thus sends astray whomever He wills, and guides whomever He wills. None knows the soldiers of your Lord except He. This is a reminder for the people.**

15 Correlation of verse 10:20 to 74:30

- ➡ $74\ 30\ 10\ 20 = 19 * 19 * 205820$
- ➡ That future mentioned in 10:20 is understood to be 1974 AD and that is 1393 AH, also:
- ➡ $1393 + 13 = 1406$ Lunar years after the start of revelations in 610 and:
- ➡ $1406 = 19 * 74$ (note the 19 & 74 and 1974 AD)
- ➡ $1406\ 10\ 20\ 1974 = 19 * 740...946$
- ➡ $10\ 20\ 1974\ 1406 = 19 * 536...074$
- ➡ Since the future mentioned in the verse is 14 centuries later:
- ➡ $1974\ 10\ 20\ 14 = 19 * 103...106$

16 Correlation of verse 10:20 to 74:30

- The name of the discoverer of the code in 1974 AD is Rashad Khalifa and that name is expressed in three Gematrical forms: 505, 1230, 505725
- $1406 \text{ } \underline{505} \text{ } 10 \text{ } 20 \text{ } 74 \text{ } 30 = 19^* 740...970$
- $10 \text{ } 20 \text{ } 74 \text{ } 30 \text{ } \underline{1230} \text{ } 1974 = 19^* 537...946$
- $1393 \text{ } \underline{505725} \text{ } 10 \text{ } 20 \text{ } 74 \text{ } 30 = 19^* 733...970$
- Since chapter 74 is named entirely the “Hidden Secret” (Gem=775[+]=19):
- $10 \text{ } 20 \text{ } 1393 \text{ } 1974 \text{ } 74 = 19^* 536...446$
- $10 \text{ } 20 \text{ } 775 = 19^* 53725$

17 How Code 19 expresses itself in Quran:

- The name of the Quran referring to this Quran 57 times in two forms (القرآن &Gem= 383) and(قرآن &Gem= 352).
- They start from 2:185 (القرآن &Gem= 383) and ends at 85:21 (قرآن &Gem= 352).
- The following number combination is 176 digits and is multiple of 19.
- 383 2 185 4 82 5 101 6 19....73 20 76
23 84 21 85 21 352 = 19* 201....808

18 How Code 19 expresses itself in Quran:

- The name of the daily contact prayers in Quran (صلاة & Gem=131) is repeats 67 times.
- And $131 \times 67 = 19^* 693$
- The first reference is at 2:3 and the last one is in 98:5.
- The following number combination is 228 digits and $228 = 19^* 12$. Additionally, $228 = 2^* 114$
- $2 \ 3 \ 2 \ 43 \ 2 \ 45 \ 2 \ 83 \ \dots 62 \ 9 \ 62 \ 10 \ 73 \ 20$
 $98 \ 5 = 19^* 122 \dots 315$
- The summation of all these 67 chapter and verse numbers is equal to $4674 = 19^* 246$

19

- $$\begin{array}{cccccccccccccccccccc}
 7 & 1 & 2 & 3 & 4 & 5 & 6 & 7 & 2 & 8 & 6 & 1 & 2 & 3 & \dots & 2 & 8 & 6 & \dots & 5 & 1 \\
 \hline
 2 & 3 & 4 & 5 & 6 & 1 & 2 & 3 & 4 & 5 & 6 & = & 19^* & 3 & 7 & 4 & \dots & 0 & 2 & 4
 \end{array}$$

20 How Code 19 expresses itself in Quran:

- To certify the chapter orders and the number of their verses in the entire Quran the following number combination can be arranged as “chapter verse count” followed by the verse counts from 1 to that number and then chapter order number itself.
- For example, for chapter 1 with 7 verses we write this 7 1 2 3 4 5 6 7 1 and we repeat this algorithm for all the chapters and the end we add the total numbered verses of the Quran that is 6234.
- The resulting number has 12930 digits.

$$\begin{array}{r} \text{7 1 2 3 4 5 6 7 1} \quad \text{286 1 2 3...286} \\ \hline \text{2.....5 1 2 3 4 5 1 13 6 1 2 3 4 5 6} \\ \hline \text{114 6234} = \text{19}^* \text{374...486} \end{array}$$

21 How Code 19 expresses itself in Quran:

- To certify the chapter orders and the number of their verses in the entire Quran the following number combination can be arranged as the verse counts from 1 to the count of verses on that chapter and then followed by the summation of the verses count for that chapter.
- For example, for chapter 1 with 7 verses we write this 1 2 3 4 5 6 7 28 and we repeat this algorithm for all the chapters.
- The resulting number has 12836 digits.

$$\begin{array}{r} \text{➤ } 1 \ 2 \ 3 \ 4 \ 5 \ 6 \ 7 \ 28 \ 1 \ 2 \ 3 \dots 286 \\ \hline 41041\dots 1 \ 2 \ 3 \ 4 \ 5 \ 6 \ 21 = \end{array}$$

$$19^* 649\dots 559$$

22 How Code 19 expresses itself in Quran:

- To certify the chapter orders and the number of their verses in the entire Quran IN REVERSE, the following number combination can be arranged as the verse counts from 1 to the count of verses on that chapter and then followed by the summation of the verses count for that chapter.
- For example, in chapter 114 with 6 verses we write this 1 2 3 4 5 6 21 and we repeat this algorithm for all the chapters.
- The resulting number has 12836 digits.

$$\begin{array}{r} \text{➤ } \underline{1\ 2\ 3\ 4\ 5\ 6\ 21\ 1\ 2\ 3\ 4\ 5\ 15\dots 1\ 2} \\ \underline{3\ 4\ \dots 41041\ 1\ 2\ 3\ 4\ 5\ 6\ 7\ 28} = \\ \text{19* 649...512} \end{array}$$

23 How Code 19 expresses itself in Quran:

- The number of chapters 114, followed by the total count of numbered verses 6234 and then a chapter number and the summation of the verses in that chapter create another long number.
- For example, in chapter 1 with 7 verses we write this 1 28 and then 2 41041 for chapter 2 and we repeat this algorithm for all the chapters.
- The resulting number has 612 digits.

$$\begin{array}{l} \text{➤ } \underline{114} \ \underline{6234} \ \underline{1} \ \underline{28} \ \underline{2} \ \underline{41041} \dots \underline{113} \ \underline{15} \\ \underline{114 \ 21} = 19^* \ 603 \dots 759 \end{array}$$

24 How Code 19 expresses itself in Quran:

- If we consider the order number for every Basmalah besides the first numbered verse of the Quran as number (0) in a chapter and we can arrange a mega number as follows.
- Chapter number followed by 0 for Basmalah and then verse order in its chapter and then verse order from the beginning of the Quran.
- For example (1/1-1, 2-2, 3-3, 4-4, 5-5, 6-6, 7-7) for the first chapter and for the second chapter (2/0-8, 1-9, 2-10, 3-11....286-294) and so on.
- This arrangement generates a mega number of 37088 digits number and $37088 = 19 * 1952$

25 How Code 19 expresses itself in Quran:

- 1 1 1 2 2 3 3 4 4 5 5 6 6 7 7 2 0 8 1 9 2 10 3 11 ...
114 0 6340 1 6341 2 6342 3 6343 4 6344 5 6345
6 6346 = 19* 585...334
- This number also consists of 12806 items in it and $12806 = 19 * 674$
- This number is the largest number I have seen so far (2/12/2026 AD) in relation with Quran's chapters and verse numbers.

26 How Code 19 expresses itself in Quran:

- **See the next few slides for the significance of the initials (from page 617 of the Quran translation by Rashad Khalifa)**

The Literary Mathematical Composition

27

The Quran is characterized by a unique phenomenon never found in any other book; 29 suras are prefixed with 14 different sets of “Quranic Initials,” consisting of one to five letters per set. Fourteen letters, half the Arabic alphabet, participate in these initials. The significance of the Quranic initials remained a divinely guarded secret for 14 centuries.

The Quran states in 10:20 and 25:4-6 that its miracle, i.e., proof of divine authorship, was destined to remain secret for a specific predetermined interim: (see the next slide)

The Literary Mathematical Composition

28

They said, “Why hasn’t a miracle come down to him from his Lord?” Say, “Only God knows the future. Therefore, wait, and I will wait along with you.”

[10:20]

Those who disbelieved said, “This is no more than a fabrication by him, with the help of other people.” Indeed, they uttered a blasphemy; a falsehood. Others said, “Tales from the past that he wrote down; they were dictated to him day and night.” Say, “This was sent down from the One who knows ‘the secret’ in the heavens and the earth.” Surely, He is Forgiving, Most Merciful.
